Aaryaman Saha

Brooklyn, NY | as20989@nyu.edu | Architecture Portfolio

Education

New York University – Tandon School of Engineering — New York, NY
Master of Science in Construction Management (Expected May 2027), GPA: 3.7 — *2025 – 2027*

Relevant Coursework: Project Management, Cost Estimation, Contracts & Specifications, Construction Scheduling, Modeling Techniques, Risk Analysis, Accounting & Finance, Marketing for Construction Management, Real Estate Development & Entrepreneurship (NYU Stern Business School)

Manipal Academy of Higher Education — Karnataka, India
Bachelor of Architecture — *2019 – 2024*

Professional Experience

Double P Construction Inc. — Fort Lauderdale, FL
Construction Management Intern — *Jun 2026 – Aug 2026*

- Managed the preconstruction and execution of luxury residential and condominium projects valued between $3M and $5M across multiple active phases in the Fort Lauderdale and Miami markets.
- Assisted with key preconstruction activities including CPM schedule development in MS Project, budget preparation, bid solicitation/leveling, and subcontract drafting, using Procore and Bluebeam Revu for submittal management.
- Performed quantity takeoffs and value engineering analyses to optimize material usage and support cost control initiatives.
- Collaborated with the accounting team using Sage 100 Contractor to process invoices, monitor project budgets, and generate purchase orders and change orders.
- Verified onsite work against specifications to flag constructability and quality issues, preparing RFIs and coordinating resolution across contractors.
- Developed an AI implementation strategy to modernize project workflows, identifying opportunities to improve operational efficiency and increase revenue potential.

New York University – Tandon School of Engineering — Brooklyn, NY
Teaching & Research Assistant – Construction Scheduling & Advanced Building Information Modeling — *Jan 2026 – Present*

- Assisted construction-related student organizations, and performed data analysis for a construction automation research project funded by NYU.
- Prepared and graded assignments and exams while supporting instruction for construction scheduling and advanced BIM coursework.

BB Enterprise – Military Engineering Services Accredited Contractor — Siliguri, India
Construction Management Intern — *Aug 2024 – Mar 2025*

- Supervised onsite contractor teams on a military cantonment food court project, coordinating multiple workstreams and ensuring work was executed safely and to specification.
- Maintained project documentation including submittal tracking, progress reports, and material delivery logs.
- Coordinated with contractors, suppliers, and consultants to ensure alignment with drawings and specifications.
- Conducted site inspections and quality verifications against contract documents, resolving constructability and scheduling issues with contractors and consultants as they arose.

Kembhavi Architecture Foundation — Bangalore, India
Architectural & Site Coordination Intern — *Jan 2023 – Jul 2023*

- Developed design and construction drawings while coordinating with consultants for commercial and residential developments.
- Contributed to an $80M renovation at Kochi International Airport, including a 46,000+ SF transit lounge and a 13,000+ SF commercial facility.
- Supported planning for Capella Botanico, a 17-acre residential development consisting of nine high-rise towers (G+18 / G+24).

Academic Project

CPM Scheduling
- Developed a Critical Path Method (CPM) construction schedule for a warehouse project using Primavera P6.
- Optimized labor sequencing and workflow to identify critical activities and improve schedule efficiency.

Cost Estimation
- Developed a comprehensive bid estimate and report for a 75,000+ SF correctional facility in upstate New York.

Technical Skills

Project Planning & Controls: Procore, Bluebeam Revu, MS Project, Primavera P6, RIB CostX, On-Screen Takeoff, Sage 100 Contractor, Monte Carlo simulation

Design & Documentation: Revit (BIM), AutoCAD, Rhino, Grasshopper

Productivity Tools: Microsoft Office (Excel, Word, PowerPoint), Outlook, Google Workspace

Certification: OSHA 10-Hour Construction Safety, Procore Project Manager, Procore AI in Construction

AI Tools: OpenAI AgentBuilder, N8N, Claude Cowork
- Applied AI agents to construction workflows: developed tools connecting to Autodesk Construction Cloud for automated inspection reporting, contract verification and quantity extraction from CAD drawings.

Extracurricular

NYU DBIA Student Chapter — New York, NY
President — *Feb 2026 – Present*

- Leading the NYU DBIA Student Chapter by organizing industry events, networking opportunities, and collaboration with design-build professionals.
